

Skaters and Coaches must meet all current US Figure Skating requirements for testing. Current US Figure Skating rules supersede these guidelines in the event of a Discrepancy.

Pre-requisites and Registration Test session registration generally takes place online through EntryEeze. Applicants are pre-registered through US Figure Skating to verify eligibility for tests. Coaches must approve testing applications in a timely fashion; a request is automatically sent via EntryEeze. Skaters wishing to test must be US Figure Skating members in good standing. Coaches must meet US Figure Skating requirements for test sessions.

Fees Test fees are non-refundable. Before registering, be sure that you are available to take the test at any time during the scheduled test session. Registration for contingent tests is allowed on a space available basis; however, no refunds will be made if a skater fails to qualify for a contingent test.

Fees may vary by test session depending on a variety of factors including ice time and test session expenses. Skaters that are not members of GGBFSC may be required to pay an out-of-club fee. GGBFSC may also charge a judge fee, hospitality fee, or other fees as necessary.

Non-Club Member Permission Skaters who belong to a club other than GGBFSC must provide documentation of permission to test as soon as possible after registration. Completed permission forms may be emailed directly to ggbfscstestchair@gmail.com. If documentation of permission is not received in a timely manner, test registration may be cancelled.

Schedule Whenever possible, the schedule will be provided at least one week in advance of the test session. However, due to a variety of factors, release of the schedule may be delayed in some cases. Individual scheduling needs cannot always be accommodated; test fees will not be refunded if a skater is unable to test at the scheduled time.

Test Day

Testing skaters and their coaches should plan to arrive at the test session at least one hour in advance; skaters in the first warm-up may arrive 30 minutes before the warm-up time. Other than the first event, skaters should be prepared to test up to one hour prior to their scheduled Time.

COVID-19

If we end up canceling the test session for reasons surrounding our current COVID-19 pandemic, all fees will be refunded. We will be requiring a COVID-19 waiver for any test session from now until further notice. The Waiver can be found on our Test Session website home page and is required to be signed and submitted at the time of register in order to complete the skater's registration.

Per US Figure Skating's recommendation, we will be taking additional precautions. We reserve the right to change these precautions as new information comes out from US Figure Skating or local and state guidelines are updated.

GGBFSC will...

1. follow all state and local guidelines.
2. consider the path the skaters, coaches, officials and volunteers take through the building during the test session. We will communicate the details about PPE requirements and the designated pathway through the building at least one week in advance.
3. designate seating and warm-up areas for each test candidate. Thoroughly clean the space when the skater leaves the building.
4. email pictures of test papers rather than provide paper copies.
5. Officials, runners, music volunteers or anyone helping manage testing papers, CDs or other exchanged items will use hand sanitizer or wash their hands frequently.
6. Require all volunteers, coaches, and officials to wear a mask at all times even during testing
7. Only allow 1 adult to accompany a skater in the building, this includes while they are registering, warming-up or testing

Skaters will...

1. arrive ready to test – in costume, hair and makeup done, etc.
2. wear masks at all times while moving through the building and while testing.
3. following the on-ice warm-up, the skater should remain in the designated seat or warm-up area until the test is taken.
4. leave the building immediately following the test.
5. Only have 1 adult accompany them in the building during the test session

Coaches will...

1. wear masks at all times while moving through the building and during the entirety of the test session. This includes if you need to enter the ice for any reason.
2. leave the building immediately following the test. If you have multiple testers testing with us in one test session, you must leave the building if there is more than 30 minutes between your skaters testing
3. ensure your skater only has 1 adult accompanying them in the building during the test session

Please contact ggbfscstestchair@gmail.com with any questions related to the Test Sessions.
