

Dear Greater Green Bay Figure Skating Club members,

As we continue to navigate this pandemic, and as the spread and effects of the pandemic continue to change like a ride on a roller coaster, it has become apparent to the board of directors that we will have to pivot our policies to address whatever the current conditions of the pandemic are.

With the current rise and spread of Covid 19, we are updating our reporting policy and potential isolation times (from the rink). Please remember that any skater or family member that tests positive should be reported to Sarah Schoen at ggbfsc.lts@gmail.com . The following are the current expectations that each of us (skaters, coaches and parents) can expect from each other:

If a skater, coach or parent tests positive for Covid 19, they are expected to follow the CDC guidelines for isolation and then masking, which means isolation from the rink the first 5 days and then all-time masking the next 5 days while at the rink (provided their symptoms have subsided)

If a skater, coach or parent has been exposed to Covid 19, and they have had a booster shot or had their second vaccination shot within the last six months, they may be at the rink while all-time masking, provided they are symptom free.

If a skater, coach or parent has been exposed to Covid 19, but have NOT had the booster shot or their second vaccination shot was over six months ago, they must isolate away from the rink for 5 days and then may return to the rink while all-time masking for five days, if symptom free.

The current CDC guidelines read:

If You Test Positive for COVID-19 (Isolate)

Everyone, regardless of vaccination status.

- Stay home for 5 days.
- If you have no symptoms or your symptoms are resolving after 5 days, you can leave your house.
- Continue to wear a mask around others for 5 additional days.

If you have a fever, continue to stay home until your fever resolves.

If You Were Exposed to Someone with COVID-19 (Quarantine)

If you:

Have been boosted

OR

Completed the primary series of Pfizer or Moderna vaccine within the last 6 months

OR

Completed the primary series of J&J vaccine within the last 2 months

- Wear a mask around others for 10 days.
- Test on day 5, if possible.

If you develop symptoms get a test and stay home.

If you:

Completed the primary series of Pfizer or Moderna vaccine over 6 months ago and are not boosted

OR

Completed the primary series of J&J over 2 months ago and are not boosted

OR

Are unvaccinated

- Stay home for 5 days. After that continue to wear a mask around others for 5 additional days.
- If you can't quarantine you must wear a mask for 10 days.
- Test on day 5 if possible.

If you develop symptoms get a test and stay home

Every effort and every pivot we make regarding Covid 19 is done in an attempt to ensure our skaters and families utmost safety while also trying to keep our skaters on the ice as much as possible.

We appreciate your patience and understanding as we continue to work together to navigate the club through this pandemic.

Please feel free to reach out to any of us with any questions you may have.

Sincerely,

The Greater Green Bay Figure Skating Club Board Of Directors
