Classes may be combined or changed to optimize participation. *** I have read the concussion information and am aware of the symptoms.*** I/We have read the GGBFSC Handbook, Safe Sport Handbook, and Code of Conduct, and agree to all Conditions set forth therein.

SPECIALTY CLASSES

Available on Saturday mornings and Wednesday evenings in the summer. Classes will vary by session.

Holiday Exhibition: Holiday Exhibition practice is open to all skaters enrolled in class on Thursday or Saturday! Available only during the Holiday session of classes. There are no costumes — each group decides on a theme to wear. This year's Holiday Show will be on Sunday, Dec. 13. An open skate with Santa follows with an additional cost.

Hockey: The Hockey curriculum is designed to teach the fundamentals of hockey skating. New skaters will learn how to be more proficient and agile on the ice. Proper skating techniques for the game of hockey are the primary focus of the levels. Skaters will learn the basic hockey stance, stride, knee bend, use of edges, and other necessary fundamentals to be successful in hockey practices and game situations.

Synchro: Is your skater interested in trying Synchronized Skating? Skaters Basic 1 and up are invited to sign up to learn basic synchronized skills: lines, wheels, blocks, circles, and more! This is a great opportunity for your skater to continue developing their skills while also participating in a team activity. This class will introduce you to our KICKS Synchronized Skating Program! For more information on Synchronized Skating, feel free to check us out on the GGBFSC website!

Skating Skills & Drills: Join us to learn the introduction to Skating Skills and Drills! In this class, your skater will work on increasing their overall skating skills. This class is a transition to more advanced skating techniques that your skater will develop throughout their skating careers! We will focus on power, balance, strength, and flexibility in relation to skating skills and technique. This class is open to skaters Basic 3 and up.

Private Lessons: Work one-on-one with one of our fabulous Learn to Skate coaches to help your skater pass to the next level. Private lessons are only available on Saturday mornings or Wednesday evenings in the summer.

Aspire Beyond the Basics Class (Introduction to Club)!
Are you looking to join the Greater Green Bay Figure Skating Club soon, to further your journey in figure skating? This speciality class will run as an introduction to club skating with the Greater Green Bay Figure Skating Club. Each week, the program will rotate through different areas of the U.S. Figure Skating testing and learning protocol. This includes Skating Skills, Singles, Dance, and more. It also incorporates different LTS Class Levels including Dance, AIM, and FS. In addition to these skating skills, skaters will learn the basics of club ice etiquette and how a club ice session typically runs. This class is open to skaters Basic 4 and up.

FIRST-TIME SKATERS IN OUR PROGRAM

Skating Levels: Snowplow Sam 1 is the beginning level for 3- to 5-year-olds. Basic 1 is the beginning level for skaters 6 years and older – or for those new to the Learn to Skate program. Adult 1 is the beginning level for skaters 18 years and older. After you master the skills at Level 1, you will graduate to Level 2, and so on. Each class includes ½ hour of practice ice.

Helpful Hints: Wear gloves or mittens as well as bicycle or hockey helmets for beginning skaters. Wear knit pants for flexibility (snow pants are OK). Layer heavy shirts or jackets. Single blade, sharpened skates are required. Skate rentals are available at the rink. If you have any questions email us at ggbfsc.lts@gmail.com or visit our website at: greatergreenbayfsc.com. Advance registration is required. Class sizes are limited and fill quickly.

US Figure Skating Membership: Skaters need to pay a yearly fee of $22.00 for a basic skills membership. This allows the skater to compete at Basic Skills competitions and includes sports insurance coverage. A skills booklet and other information will be directly mailed to you.

Nametags: All skaters MUST wear a nametag on the ice! This is how we can tell what class your skater is in and then we can help them get to their classes on time. If you are on the ice, you must wear a nametag.

Concussions and Safe Sport: Unfortunately, concussions happen in many sports. We want you to be aware of the symptoms and be informed about concussions in case you or your skater gets injured. GGBFSC's website has information for you at https://greatergreenbayfsc.com/wp-content/uploads/2024/04/ConcussionEducationInformation-.pdf. Forms must be signed before you can skate on our ice. All handbooks are on the GGBFSC website forms tab.

Rising Stars: Rising Stars guides skaters and transitions them from Learn to Skate to club. Skaters will have separate ice time from club and LTS skaters where they learn introductory club skating skills, participate in on- and off-ice small group classes, meet club instructors, and are introduced to the world of competition and testing. Parents are given resources and education on the Greater Green Bay Figure Skating Club. Skaters must be in Basic 4 or above to participate.

Find a Coach: Once a skater passes Basic 5, they are eligible to join Greater Green Bay Figure Skating Club. This program helps new club skaters find a primary coach. It includes five 55-minute ice sessions, each with a 30-minute lesson with a club coach accepting new skaters. For more information, contact ggbfscwelcome@gmail.com.

Coaches: We take pride in knowing that our coaches are professionally trained and certified by Learn to Skate USA!!
